Extended Description:

The Mental Health Atlas 2017 contains progress reports from 177 out of 194 (91%) of WHO's Member States on implementation of the Comprehensive Mental Health Action Plan 2013-2020. The data indicate that the global targets can be reached only if there is a collective global commitment that leads to substantial investment and expanded efforts at country level for mental health policies, laws, programmes and services across all Member States.
