

PAHO Launches Consultation to Select R&D Demonstration Projects

Idioma Undefined

PAHO has launched a process to select research and development (R&D) projects that contain innovative coordination and financing mechanisms to accelerate the development of medicines and necessary health technologies in middle- and low-income countries.

To help inform the process, PAHO is hosting a *civil society online forum* on **August 23rd** for the development of a small number demonstration projects that will test innovative approaches to coordination and financing for diseases primarily affecting low and middle income countries.

Timeline:

August: First meeting of Member States to determine priority areas

September: Call for projects and details on the submission criteria will be issued

October: An on-site meeting will be held in Washington, D.C. i where Member States representatives will have the opportunity to select four projects

December: The four projects will be evaluated by an expert committee in Geneva.
