

Annual Report 2022

Annual Report 2022

Langue Anglais

For the last 13 years, the NCD Alliance has worked tirelessly with civil society, people living with NCDs, governments and all actors to ensure everyone can live a healthy and productive life, free from the preventable suffering, stigma, disability and death caused by NCDs. In 2022, we remained steadfast against this vision and our conviction that progress is possible.

Extended Description:

For the last 13 years, the NCD Alliance has worked tirelessly with civil society, people living with NCDs, governments and all actors to ensure everyone can live a healthy and productive life, free from the preventable suffering, stigma, disability and death caused by NCDs.

In 2022, we remained steadfast against this vision and our conviction that progress is possible.

This annual report provides a snapshot of NCDA's activities and achievements throughout 2022. It also includes a summary of our financial statements as well as an overview of NCD Alliance grants, including those made through the Advocacy Institute programme; the Our Views, Our Voices initiative; and the iTFA elimination programme.

Since beginning our Strategy 2021-2026, all of our work at NCDA from global to local has been focused on achieving progress against four thematic impact goals – prevention, care, financing and community engagement. For the first time, our Annual Report is structured around these goals, highlighting progress, achievements and results from across the year in each area.

Along with sharing our achievements, this annual report serves as a testament and heartfelt thank you to our membership, partners and community as we move ever closer towards meeting our common goal: to reduce the NCD burden for people everywhere.
