

The HLM4 Political Declaration on NCDs and Mental Health is under serious threat

Langue Anglais

Urgent action needed!

~~The HLM4 Political Declaration on NCDs and Mental Health is under serious threat. A watered-down declaration will fail to protect lives and advance health equity. The importance of a concise, action-oriented Political Declaration with strong commitments is essential to achieving real progress on NCDs, which continue to be the world's leading cause of death.~~

~~Final Countdown: Last chance to shape #HLM4 outcome~~
~~From negotiations a few expected ending 30 July with one week left, the time to act is now.~~

~~Content and Mission in New York, Ministry of Foreign Affairs, and evidence-based declaration.~~
