## Realising the promise of digital health for NCDs and UHC

Realising the promise of digital health for NCDs and UHC

Language English

This working document was developed on the basis of the report “The Promise of Digital Health: Addressing Non-communicable Diseases to Accelerate Universal Health Coverage in LMICs” developed by the Working Group on Digital Health of the Broadband Commission co-chaired by the Novartis Foundation and Intel. It is intended to inform a series of dialogues on the potential of digital health for NCDs on an international scale.
