Statement at the Special Session of the WHO Executive Board, November 22-23

The Union against Tuberculosis and Lung Disease and the NCD Alliance congratulate WHO on an ambitious draft 13th General Programme of Work.

We welcome the focus on the UN Sustainable Development Goals in framing the GPW13, support its mission and strategic priorities, and the renewed focus on putting countries at the centre.

We are pleased to see greater prominence given to the prevention and control of NCDs, particularly evident via the inclusion of NCDs and mental health as a flagship initiative. Given their health burden and economic impact, it is crucial WHO takes a leadership role on NCDs, in particular in the lead-up to the 2018 UN High-Level Meeting on NCDs.
