Extended Description:

The current version of the draft political declaration has been systematically weakened.

The language on commitments has been watered down throughout, particularly on the cost-effective NCD prevention policies and fiscal measures, and the ambition of the targets in most sections has been flattened.

Final negotiations are expected on 30-31 July — this is our last chance to share the outcome.

Raise your voice!

We urge advocates to contact your Ministry of Health, Ministry of Foreign Affairs, and Permanent Mission in New York to demand a strong, measurable, and evidence-based declaration.
