Extended Description:

Over recent years there has been growing recognition of the importance and value of integrating NCDs/mental health and HIV/AIDS. It has been reflected in new multi-year strategies of leading global coordinating and funding institutions including the Global Fund to Fight AIDS, TB and Malaria (GF) 2023-2028 Strategy.

In light of these developments, on 22 June 2023, NCD Alliance organised a thematic webinar on the topic to highlight the importance of including NCDs/mental health within comorbidities and integrated people-centred services for Global Fund targeted populations.

The webinar was a platform for NCD Alliance members and partners to share their experiences and the results of work they are already doing in this area and discuss how they can engage in country-level advocacy focused on Global Fund funding.

The recordings are now available online.
